

# GEOGRAPHY (GEOG)

---

## GEOG C100 3 Units (54 lecture hours)

### World Regional Geography

**Grading Mode:** Standard Letter, Pass/No Pass

**Transfer Credit:** CSU; UC.

This course covers the physical and cultural features of various regions of the world. It examines the relationship between the physical environment and the cultural, political, and economic development of human societies; the reciprocal impact of human societies upon the environment; and current and potential world problems relating to geographic issues. Graded or Pass/No Pass option. **C-ID:** GEOG 125.

## GEOG C150 3 Units (54 lecture hours)

### California Geography

**Grading Mode:** Standard Letter, Pass/No Pass

**Transfer Credit:** CSU; UC.

A study of California's diverse natural, cultural, economic, and human systems. Specific emphasis on geological processes, climate, biogeography, hydrology, migration, and landscapes. Current environmental, social, and economic concerns relating to California geographic concepts are explored. Graded or Pass/No Pass option.

## GEOG C155 3 Units (45 lecture hours; 27 lab hours)

### Introduction to Geographic Information Systems and Techniques with Lab

**Grading Mode:** Standard Letter, Pass/No Pass

**Transfer Credit:** CSU; UC.

An introduction to the concepts and use of Geographic Information Systems (GIS) and its role in analysis and decision making. Course work is based on the mapping and spatial analysis capabilities of GIS software programs. Students will be introduced to basic cartographic principles, maps, resolution, scale, coordinate systems, vector and raster systems, projections, and Global Positioning Systems (GPS). Through computer lab tutorials and case studies, students will learn to use GIS software to view relationships, patterns, or trends that are not possible to see with traditional charts, graphs, and spreadsheets. This course is identical to CIS C190. Graded or Pass/No Pass option. **C-ID:** GEOG 155.

## GEOG C180 3 Units (54 lecture hours)

### Physical Geography

**Grading Mode:** Standard Letter, Pass/No Pass

**Transfer Credit:** CSU; UC.

This course is a spatial study of the Earth's dynamic physical systems and processes. Topics include Earth-sun geometry, weather, climate, water, landforms, soil, and the biosphere. Emphasis is on the interrelationships among environmental and human systems and processes and their resulting patterns and distributions. Tools of geographic inquiry are also briefly covered; they may include maps, remote sensing, Geographic Information Systems (GIS), and Global Positioning Systems (GPS). Graded or Pass/No Pass option.

## GEOG C180L 1 Unit (0 lecture hours; 54 lab hours)

### Physical Geography Lab

**Grading Mode:** Standard Letter, Pass/No Pass

**Transfer Credit:** CSU.

This course is designed to provide supplemental exercises in topics covered in Physical Geography lecture. Lab experience will include map analysis and interpretation, weather prognostication, landform processes and evolution, tectonics, biogeography, and habitat analysis. Graded or Pass/No Pass option.

## GEOG C185 3 Units (54 lecture hours)

### Cultural Geography

**Grading Mode:** Standard Letter, Pass/No Pass

**Transfer Credit:** CSU; UC.

This course is a study of diverse human populations, their cultural origins, diffusion and contemporary spatial expressions. Topics include demography, languages, religions, identity, urbanization and landscape modification, political units and nationalism, globalization, and economic systems and development. The course includes a geographic examination of global, regional, national, and local issues and requires students to critically evaluate these issues. At some colleges, this course is referred to as "Introduction to HUMAN Geography." Graded or Pass/No Pass option. **C-ID:** GEOG 120.
