

EOPS & CALWORKS

About the EOPS & CalWORKs Office

Coastline College's EOPS & CalWORKs Office provides additional support for low-income and underserved, at-promise student populations to achieve their academic, professional, and personal goals, including graduation, transfer, and career success.

Extended Opportunity Programs and Services

Coastline College's Extended Opportunity Programs and Services (EOPS) is a state-funded program whose aim is to provide the academic, personal, and financial support necessary for students whose educational and socioeconomic backgrounds might limit their access to higher education or hinder their ability to be academically successful as they begin their college-level studies.

Eligible students are provided additional guidance and support to help them achieve their academic goals. EOPS students who are single parents of young children receive additional support services through CARE. EOPS students who are current or former foster youth receive additional support services through NextUp.
