Course Description

This is a course utilizing the theory and fundamentals of generally accepted accounting principles and industry-specific guidance in conjunction with legal and regulatory issues needed for managing the recordkeeping and compliance documentation for Not-for-Profit entities. Creation of recordkeeping systems and various financial statements/reports that will help to evaluate accountability, transparency, and persuasiveness of a Not-for-Profit entity. Topics will include day to day transaction and special project accounting, tax and audit issues, endowments and grants, reporting obligations and other legal considerations. NOT DEGREE APPLICABLE. Not Transferable.

Course Level Student Learning Outcome(s)

1. Define and demonstrate an understanding of the organizational structure, legal and regulatory compliance requirements of not for profit organizations.
2. Demonstrate knowledge of appropriate accounting principles, records, and reports for the various business transactions of a not for profit entity.

Course Objectives

- 1. Describe and perform accounting and recordkeeping functions for a not-for-profit entity.
- 2. Prepare and analyze basic reports of financial information for not-for-profit organizations.
- 3. Discuss how proper recording of transactions provide day to day information for tracking cash balances and requirements.
- 4. Demonstrate how transactions and financial records provide information to internal and external users regarding essential tasks, decisions, and transparency.
- 5. Identify and use basic federal, state, payroll, and other tax filing requirements.
- 6. Perform not-for-profit accounting, recordkeeping and reporting using manual and computer software systems.
- 7. Describe federal and other grant-making organizations applications, accounting processes, and reporting requirements.
- 8. Understand the requirements of and the preparation for financial and regulatory audits.
