Course Description

A continuation of the intensive study and application of GAAP and IAS begun in ACCT A212. The emphasis in this course is on the valuation and presentation of long-term liabilities, stockholders equity, revenue recognition, revenue and related income statement accounts, income taxes, leases, footnote disclosures required by GAAP and IAS, and other special/current accounting topics. Suitable for CPA Exam preparation. ADVISORY: ACCT A101 or ACCT A101H or ACCT A212. Transfer Credit: CSU.

Course Level Student Learning Outcome(s)

1. Define and explain financial reporting standards and GAAP.
2. Apply the guidelines for revenue recognition to various business situations.
3. Prepare financial statements and explain their individual components.
4. Analyze financial statements using ratios and other analytical tools.

Course Objectives

- 1. Define financial reporting standards under GAAP and IAS (international accounting standards)
- 2. Explain concepts and assumptions used in accounting.
- 3. Define current and long term liabilities; explain complexities of contingencies.
- 4. Define the components of stockholders equity and the earnings per share ratio, dilutive securities.
- 5. Apply principles of revenue recognition as outlined by GAAP and IAS.
- 6. Explain the three categories of investments and how they are expressed within the financial statements.
- 7. Demonstrate understanding of the complexities of accounting for income taxes.
- 8. Prepare and analyze post-retirement benefits and healthcare benefits.
- 9. Define and apply lease accounting principles.
- 10. Prepare corrected financial statements and demonstrate understanding of accounting changes.
