## Course Description

Formerly: Basic Accounting Concepts for Small Business. This course is identical to MGMT G163. This course teaches small business owners basic accounting functions such as receivables and payables management, bank reconciliations, and financial statement preparation. This course also covers financial statement analysis to assess operational performance, financial condition, and certainty of cash flows. Development of start-up cost estimates and financial projections will also be explored. Enrollment Limitation: MGMT G163; students who complete ACCT G163 may not enroll in or receive credit for MGMT G163. Transfer Credit: CSU.

## Course Level Student Learning Outcome(s)

1. Course Outcomes
2. Course Outcomes
3. Prepare a profit and loss statement with accompanying monthly variance analysis.
4. Compute start-up cost projections for a small business in accordance with the business plan.
