Course Description

This course facilitates the exploration of launching a business and becoming an entrepreneur. The course introduces the concepts and application of Human-Centered Design (HCD) to uncover the needs of current and future customers. Lean startup techniques will be examined to provide strategies for estimating costs and acquiring the initial funds for starting a business. These activities will prepare students to develop a summary business plan and for success in subsequent entrepreneurship coursework. Transfer Credit: CSU.

Course Level Student Learning Outcome(s)

1. Describe the elements of the entrepreneurial process, including relevant business terminology.
2. Analyze and define current and future markets to generate a needs assessment.
3. Develop and present a business plan summary.
