Repeatable	No
Grading Policy	Standard Letter (S)

Course Description

Introduction to the exceptional child including the gifted, developmentally delayed, emotionally disturbed, speech and hearing impaired, visually impaired, orthopedically and neurologically impaired. The role of the teacher in supporting these children and their families and vocational opportunities are discussed. Formerly known as HMDV A210. Transfer Credit: CSU.

Course Level Student Learning Outcome(s)

1. Observe and recognize atypical development of a child and determine methods that might be used to modify the atypical behavior.
2. Construct a sample letter of referral to a school district describing the concerns and identified behaviors as rationale for a request for assessment.
3. Compare and contrast the characteristics of a disability as described in the text with a non-text book about a person with the same disability.

Course Objectives

- 1. Define terms used in the study of the exceptional child.
- 2. Compare and contrast various types of disabilities.
- 3. Locate services for children in the Orange County area.
- 4. Discuss the various services available to children and families.
- 5. Identify characteristics of the different developmental problems that they might see in children.
- 6. Discuss how to support the child with special needs and the family.
