- Work Experience (20)

Instructional Techniques

Work Experience Education is a non-traditional delivery system that incorporates work into the curriculum. This program provides a cooperative effort for the college, its staff, the work supervisor, and the student to establish and accomplish learning objectives toward the students career goals. Objectives will be created by the student in conjunction with his/her supervisor and WEE instructor.

Reading Assignments

Required manuals, documents, license agreements and industry updates.

Writing Assignments

Written assignments, projects and/or skills demonstrations related to industry requirements.

Out-of-class Assignments

Cooperative effort for the student and work supervisor to establish and accomplish learning objectives toward the students career goals. These will be related to the students routine duties, on the job problem solving, personal improvement, and career advancement assignments.

Demonstration of Critical Thinking

Projects will be completed to demonstrate competencies in the workplace in relation to industry standards. Written assignments, projects, and skills demonstration related to WEE workbook supplements.

Required Writing, Problem Solving, Skills Demonstration

Situational workplace demonstration concerning industry requirements. Written assignments, projects and skills demonstrations. related to WEE workbook supplements. Primary/secondary research, presentation, organization, and online data search/manipulation may be included.
