AUTOMOTIVE: ENGINE PERFORMANCE AND EMISSION SPECIALIST, ASSOCIATE IN ARTS DEGREE

Banner Code: 2_AA_ATEP Control Number: 03911 Financial Aid Eligible

Students are given two options in order to prepare for a specialized field of study within the Automotive Technology program, the Chassis and Drivetrain option and the Engine Performance and Emissions option. New students entering either option are encouraged to consider taking preparation classes in automotive theory and computer skills before enrolling in the regular required courses for the certificate. This is intended to assure successful performance in the required courses unless students have received prior training or education related to the recommended courses that would fulfill preparation expectations. These courses may normally be available in sequential patterns that would allow completion of the certificates within a two year time frame. Students will be responsible for providing their own textbooks, personal safety equipment, protective clothing, a basic hand tool set and project related materials. The cost of these items will vary according to place of purchase.

Program Level Learning Outcomes

Upon completion of this program, students will be able to:

- 1. Measure and convert assigned unit pieces to interpret the appropriate SAE and metric unit. (Celsius to f, and inches to millimeters).
- 2. Diagnose and identify a fault, and will perform the necessary steps to complete a accurate repair.
- 3. Analyze and diagnose automotive engines and related components for correct system operation.
- 4. Demonstrate mastery of diagnostic tools and equipment used for automotive repair.

Review Graduation Requirements (https://catalog.cccd.edu/goldenwest/graduation-requirements/associate-degree/) and General Education (https://catalog.cccd.edu/golden-west/general-education/).

Course	Title	Units
Required Courses		
AUTO G110	Engine Repair	5
AUTO G120	Electrical/Electronic Systems: Introductory	5
AUTO G130	Engine Performance: Basic Theory/ Diagnosis	4.5
AUTO G131	Engine Performance: Advanced	4.5
Major Total		19
GE Pattern (Local, CSU GE-Breath, or IGETC)		18-39
Total Units		60

Recommended Program Sequence

These sequences are general course maps for students to finish all major and general education requirements for two-year completion

of degrees, completion of short-term certificates, and/or fulfillment of transfer requirements. However, this may not be an appropriate path for all students. The two-year sequence is based on English and Math placement and meeting other course prerequisites. **Students are advised to meet with a GWC Counselor to review course selections and sequences to ensure that completion of this program will meet a student's transfer and career goals**.
