1

To meet application requirements, the Biology courses are highly recommended to be completed prior to filing an application and are required to earn multi-criteria points.

2

To meet GWC Nursing graduation requirements, students need to successfully complete these courses.

The above curriculum does not satisfy all graduation and transfer requirements. All information is subject to change.

Recommended Program Sequence

These sequences are general course maps for students to finish all major and general education requirements for two-year completion of degrees, completion of short-term certificates, and/or fulfillment of transfer requirements. However, this may not be an appropriate path for all students. The two-year sequence is based on English and Math placement and meeting other course prerequisites. **Students are advised to meet with a GWC Counselor to review course selections and sequences to ensure that completion of this program will meet a student's transfer and career goals.**
