

# CREDIT COURSES

## Transfer Courses

All courses numbered A100 or higher are transferable to the California State Universities (CSU).

Courses that are transferable to the University of California are designated 'UC.' Some of these courses have limits on the amount of credit that is granted. See the UC Transferable Course List available in the Counseling Center or Transfer Center for these limitations.

## Honors Courses

All courses designated with an "H", or an "M" in the case of lab courses, are honors courses. Students should be advised that honors courses cover more rigorous content and require additional out-of-class assignments.
