

BIOLOGY (BIOL)

BIOL A010N 27-108 Hours (27-108 lab hours)

Biology Laboratory and Field Experience

Prerequisite(s): Students must have completed a biology laboratory course at Orange Coast College and earned a C or better.

Grading Mode: P/NP/SP Noncredit

Transfer Credit:

Not Transferable.

This course will provide instruction and hands-on experience in laboratory procedures and safety, laboratory equipment assessment, chemical safety and making solutions, running experiments in the field/laboratory, plastination of specimens, and other related laboratory/field concepts.

Students are supervised by a biology instructor and/or biology staff qualified to train the students in their procedures and safety guidelines.

Enrollment Limitation: Students must have taken a biology laboratory course and passed with a grade of C or higher at OCC prior to enrolling in this course.
