Internship - Work Experience – Noncredit

Grading Mode: P/NP/SP Noncredit

Transfer Credit:

Not Transferable.

This noncredit internship course provides students with supervised internship or work experience opportunities in alignment with their major area of study or chosen career path. Students will engage in on-the-job learning that supports both their occupational and educational goals while developing professional soft skills and technical skills relevant to the workplace. Internships may be paid or unpaid; work experience positions must be paid. This course offers a structured framework for students across disciplines to gain hands-on experience, apply classroom knowledge in real-world settings, and strengthen connections with industry partners. Advisory Statement: This course is intended for students who have successfully completed or are co-enrolled in a noncredit certificate program that require or offer an optional internship and/or work experience.
