

# NATURAL SCIENCE (NS)

---

**NS A010N** 63 Hours (9 lecture hours; 54 lab hours)

**MESA (Math, Engineering, Science Achievement) Seminar**

**Grading Mode:** P/NP/SP Noncredit

Not Transferable.

Noncredit course focusing on supporting students majoring in the fields of science, technology, engineering, and math (STEM) through workshops, enrichment activities, and professional connections. Intended for students participating in the MESA program.

**NS A011N** 63 Hours (9 lecture hours; 54 lab hours)

**MESA (Math, Science, Engineering Achievement) Laboratory and Industry Exploration**

**Grading Mode:** P/NP/SP Noncredit

Not Transferable.

The second course, in a two-course certificate of competency program for MESA students, will support and enhance the student's academic success within the STEM pathways through the development of knowledge and understanding of the existing college processes and resources. The class also provides a forum and instruction in soft-skill (writing, speaking, etc.) development that will improve workforce preparation.
