BUSINESS

The Business Department offers a variety of courses, certificates and degree programs that prepare students to enter a career, or to advance or change course in their current career in business. Some Business programs and classes prepare students for transfer to a business program at a four-year college or university.

The Business Department offers Associate's Degrees in Accounting and Business Administration, and Certificate of Achievement programs in Accounting, Business Administration, Marketing, Management, and Real Estate. Individual courses and Certificates of Specialization for focused, short-term study and skill-building are offered in Accounting Data Analytics, Entrepreneurship, E-Commerce, Finance, International Business, Social Media, and more.

Programs are designed to serve the needs of both first-time college students, as well as working adults with or without another degree, who are looking to gain new skills and knowledge. Courses are offered both on campus, during day and evening hours, and online, to serve the needs of working adults.
