INTERIOR DESIGN - DIGITAL DESIGN COMMUNICATION NC, CERTIFICATE OF COMPLETION

Banner Code: 1_NCK_ IDDD
Control Number: 44140
Not Financial Aid Eligible

The Interior Design Digital Design Communication NC Certificate prepares students and working professionals for creating design, production drawings, and presentation drawings using current industry-standard software programs. Introduction to AutoCAD, Adobe Illustrator, Adobe Photoshop, SketchUp, various rendering programs, and Autodesk Revit are among the software programs included within the certificate program. People with skills in these advanced software programs offer a marketable skill set to employers and have a higher earning potential.

Program Outcome

Successful students in this program will be able to design and produce digital files using a variety of industry-standard software and Building Information Modeling (BIM) with an emphasis on the development of interior spaces.
