

OUTREACH (FUTURE PIRATE CENTER)

The Future Pirate Center, located on the first floor of the Student Union, provides a variety of outreach and onboarding services to support the enrollment of new students. The Future Pirate team works with K-12 schools and community organizations to facilitate presentations and workshops, host information tables, attend college nights, and meet with high school counseling and college and career personnel. The Future Pirate Team provides campus tours and coordinates events to educate prospective students and their supporters of the various programs and services available at OCC. New students can receive support from the Future Pirate Team with each step of the enrollment process - applying to the College, completing the online orientation, and registering for courses. Students can access services and support in-person by visiting the Future Pirate Center or virtually through email (fpr@occ.cccd.edu) and through Zoom.
